PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DLA/CLA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CLA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DLA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Litles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (E) amminition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage maintenance areas, (K) athletic fields, (L) small arms tiring ranges. (M) driver training areas, (N) tank assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (L) unidentified facilities or tracking activity.

SUMMARY

A double-secured storage area is located 5 kilometers (km) west-southwest of the center of Simferopol (Figure 1).

The installation covers approximately 20 acres and contains 7 possible explosives storage buildings, 2 probable general storage buildings, and a support building located outside of the

secured area (Figures 2 and 3).

Comparative coverage of the installation

change. A light level of activity was observed on all coverage.

DESCRIPTION OF INSTALLATION

Road Service

The installation is served by the Simferopol-Nikolayevka highway.

Ammunition Storage Area

Area F appears doubly secured and contains 7 possible explosives storage buildings, 2 probable general storage buildings, and 1 support building.
